About This Game

Congratulations Don Jonz! You have just won a Virtual Adventure Vacation on Eternam, the biggest and best planetary Funpark in the galaxy.

Hard working intergalactic Space Marshals like yourself deserve to experience the ultimate gateway. Travel through 3D landscapes to more than a half-dozen past human eras, populated with life-like-bio=tech creatures offering tongue-in-cheek remarks. From the age of the pharaohs and the realm of medieval knights to the French Revolution and beyond, you'll have the adventure of a lifetime...or several.

But, Mister Jonz, there is a slight problem... Dragoons still inhabit Eternam wanting to reclaim the park and have joined forces with your arch-rival Mikhal Nuke. They plan to ruin your vacation in a big way!

At least you can count on help from the beautiful Tracy, a technician on the Eternam coordination team. Unfortunately, to escape Nuke's evil clutches,, she has dematerialized into the Funpark's computer network, so Tracy will communicate only via a computer screen.

You'll need intuition, courage, wit, diplomacy, charm and a surreal sense of humor. Only you can save Eternam - and yourself. But who wouldn't face all challenges to win Tracy's smile. So...Enjoy your vacation, Mister Jonz!

Byzantium 1116 lasts 18 turns, each representing a quarter between the Fall of 1112 AD and the Winter of 1116 AD. Both players attempt to capture the highlands of central Anatolia and their fortresses. The Seljuk Turks player has many horsemen and archers, and holds the initiative at the start, to capture the last remaining Byzantine strongholds. With the loot, they can raise numerous forces. The Byzantine player, although he also has a strong cavalry, must first expand his army and hire mercenaries to reverse the trend, and possibly capture the enemy's capital, Iconium. The game's event cards allow full replay ability thanks to the numerous various situations that they create on the diplomatic, military, political or economical fields.
Estimated Playtime: 3h00.
Favored Side: none.
Hardest to Play: Seljukides.
